Allowable Subject Matter

Claims 1 – 26 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art does not fairly teach or disclose alone or in combination the claimed limitations as found in the independent claims 1, 6, 11, 16, 21 and 26.

U.S. Patent Application No. 2001/0024450 (Takalo et al.) is indicative of the types of references found during the search. It has two mixers, but does not disclose having a frequency divider that produces a LO/N and synchronized with the first LO signal. Nor was taught that the intermediate mixer received the LO/N signal to produce the baseband output.

Another reference discloses that a frequency divider in which the LO is divided by N is known (see Paragraph 26 of U.S. Patent Application No. 2001/0015995 (Emery et al.)). However, it passes the signal differently than the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bill Deane whose telephone number is (703) 306-5838. In addition, facsimile transmissions should be directed to Bill Deane at facsimile number (703) 872-9306.
